Program Sustainability Action Planning Pre-Work

1.) Who will be on your program's *Sustainability Planning Team?* Who will have *oversight* of your program's sustainability efforts (who will "carry the plan")?

2.) Who are your *stakeholders* and who will the program's sustainability efforts impact (*target population*)?

3.) *Mission* and *focus* of your program:

4.) Long term *goals* of program:

5.) What do your PSAT results tell you about how you can *leverage program strengths* to *improve on program challenges*?

6.) At the programmatic level: *What* are you trying to *sustain*?

Center for Public Health Systems Science

Brown School

Washington University in St.Louis

7.) **How** can you use one (or more) of the sustainability domains to grow and sustain your program?

Things to think about:

- What sustainability domain(s) are going to be **most important** for your program?
- What sustainability domain(s) are going to be **most modifiable** for your program?

8.) List Sustainability Domains your program plans to work on (in order of priority):

Sustainability Domain 1: _____

Sustainability Domain 2: _____

9.) Writing a Sustainability Objective

Broad Goal + Sustainability Domain + SMART Details (**S**pecific, **M**easurable, **A**ttainable, **R**elevant, **T**ime-specific)
